

VANESSA HARBISON

Netsuite Developer

Lilburn, GA 30047

vharbison1@gmail.com

404-454-9629

Seeking a position that will allow me to put to use the skills that I have developed and to expound on those skills with a constructive work experience.

WORK EXPERIENCE

WEB BOOTCAMP

DigitalCrafts - Atlanta, GA

September 2019 to Present

- Gaining experience to design and develop programs with the latest and most appropriate technology (focus on MERN stack).
- Learned to mirror bash on windows and utilize Power shell with command line tool installer called Scoop
- Use GIT as version control system
- Work as a team to collaborate on projects and code review to improve on better practices
- Reviewed and practiced building web applications with front-end technology - Javascript, HTML, CSS (Bootstrap). We are currently learning tools Postman, JQuery, and JQuery HTTP request library Axios.

Netsuite Developer

PTS - Atlanta, GA

August 2015 to Present

- Create new saved searches for development and research
- Incorporates HTML, CSS, and Javascript to update website
- Create, update, test, and debug code with Netsuite's Javascript based API (Suitescript 1.0)
- Help stakeholders on navigating Netsuite platform and script automation of duties
- Work with Netsuite support on solving new and existing issues that cannot be resolved internally
- Uses CSV imports for data migration between third-party marketplaces and Netsuite
- Create fields (i.e drop-down list, textbox, checkbox) to facilitate script and co-worker processes
- Manage and maintain third party software integrations with Netsuite

Apprentice/Developer

Lamp Camp - Norcross, GA

February 2015 to June 2015

- Implemented projects with MVC (Model/View/Controller) architecture
- Worked as a team in a professional JIRA Agile environment to visualize and update workflow
- Performed database queries and used PHP to apply logic on the queried results
- Created schemas to apply and structuralize the backend for an Ecommerce Package
- Used SQLPro to store tables, query, and test applicable information
- Used git commands and remote repositories to facilitate team workflow

EDUCATION

Bachelors of Science in Computer Science

Georgia State University - Atlanta, GA

May 2014
